JAVASCRIPT ENGINEER

I am a Scrum-certified software engineer creating test-driven UIs and microservices. I love TDD, pair programming, and other Agile methodologies. I am a native-level Chinese speaker and love juggling and calisthenics.

React • GraphQL • Redux • Tanstack Query • Vitest • Web Components • TypeScript • Testing Library • msw • MUI • Storybook
Developer Productivity & Automation • Jenkins • GitLab CI/CD • Docker Compose • Redis Cloud • Supabase • Node.js
AWS • Route53 • DynamoDB • Lambda • Elastic Container Service • EC2 • S3 • CodeArtifact • PostgreSQL

EXPERIENCE

NetJets, Gahanna OH
Front-end Engineer, March 2023 – Present

- **Maintain two React applications (Node.js back ends), automate improvements.**

- **Practice TDD while modernizing our apps: GraphQL, Tanstack (React Query), Testing Library, msw**

- **Promote pair programming, Scrum practices, and other Agile methodologies.**

Offor Health, Worthington OH
Full-stack Engineer, April 2022 – January 2023

- **Responsible for vertical slice: React UI + MUI, Node.js microservices in AWS Lambda with the Serverless Framework.**

- **Vigorously practice Agile methodologies, test driven development and pair programming.**

- **Maintain 100% code coverage and useful unit, integration tests across back & front ends.**

- **Created developer productivity scripts and automation CLIs with Node.js, Docker compose, etc.**

- **Developed CI/CD pipelines from scratch, first in Jenkins then in GitLab.**

Madhive, Remote
Front-end Engineer, September 2021 – March 2022

- **Developed complex advertising analytics console with SvelteKit.**

- **Developed a Svelte component library with TypeScript and Storybook.**

- **Wrote GitHub Actions and Husky scripts. Automated component creation with Node.js and Docker.**

- **Promoted Agile methodologies, test driven development and pair programming.**

Kapitus, Westerville OH
Full-stack Developer, February 2020 – September 2021

- **React App with Testing Library, Web Components, MDC, Storybook.**

- **Worked in pairs or mobbed to develop test-driven code. Achieved 100% test coverage.**

- **Serverless back end with Node.js and AWS.**
